

What happens if I am not currently a *FaithCare* member because of seasonal employment?

Faith Community Health can continue providing care for you! You can still get appointments with our medical provider, sign up for vision exams, and get your prescriptions. If you lose *FaithCare* benefits for any reason, Faith Community Health can still be your medical home. All you need to do is get registered. Call 417-336-9355 for info. If you have already registered, you are all set. Simply call when you need an appointment.

Medical

Vision

Registered Faith Community Health patient fees are based on household income. You can find the fee schedule on our website. Simply click the link below or click on the Registration menu underneath the Clinic tab on our website.

<https://www.faithcommunityhealth.org/our-services/registration/>

Prescriptions

You can still get your prescription refills through our dispensary for \$10 a month. If a prescription expires, you will need an appointment with our medical provider to authorize a new prescription.

KWIKCare

KWIKCare services are just \$65 for the general public. Registered Faith Community Health patients pay their standard sliding scale fee or \$65, whichever is less. These walk-in services are available during all clinic hours for your convenience.

Virtual Visits

Virtual Visits are available through CoxHealth at current rates, which you can find online. Watch for lower rates during flu season, which require a special code. For more information, visit: <https://www.coxhealth.com/services/virtualvisits/>

If you have any questions or need help navigating your medical care while you are not enrolled in the *FaithCare* program, feel free to contact our office at 417-336-9355. You can also email the Director of *FaithCare* Business Development, Michele Dean, at Michele@faithcommunityhealth.org
